

GSM Based Village Display Board

Village - Ktola Crop - Cotton
Pest Attack: Jassids
Advisory - Dimethoate at
200-250 ml ai/ha - 48 hrs

Instant Farmer Advisory

Real Time GIS Based Agri DSS

Rainfall

Landuse

Crop Coverage

Soil Moisture

Yield Estimation

Fertiliser

Pest

Pesticide

Stesalit Real Time
Agriculture DSS creates the
infrastructure for real time agricultural data
acquisition, spatial framework for quick analysis
and a mechanism to disseminate critical advisory
to the farming community through intelligent
display board at each village.

Instant Data → Spatial Input → Quick Analysis → Critical Advisory
All in Real Time
